PROFILE

Aspiring Full Stack and Backend Developer with practical experience building real-world applications such as dashboards, management systems, and API-driven platforms. Interested in scalable backend development, REST API design, and modern frameworks like FastAPI. Strong problem-solving skills with a focus on performance, security, and usability.

EDUCATION

B.E. in Artificial Intelligence and Data Science

DY Patil College of Engineering, Akurdi 2023–2027

Diploma in Mechatronics Engineering

GGSP Polytechnic, Nashik 2020–2023

- Final Year Percentage: 89%

SKILLS

- **Backend:** Node.js, Express.js, JWT Authentication, Flask, RESTful APIs, FastAPI
- **Frontend:** HTML, CSS, Javascript, Tailwind CSS, Bootstrap, React.
- **Database:** MongoDB, MySQL.
- **Deployment:** Vercel, Render.
- **Tools:** GitHub, VS Code, Postman.
- **Soft Skills:** Communication Skills, Team Collaboration, Client Handling, Leadership

INTERNSHIP EXPERIENCE

Technical Lead – Trinetra Aerospace Pvt.Ltd,Pune

Nov 2025–May 2026

- Integrated real-time and recorded drone video feeds into a centralized web-based dashboard.
- Designed and implemented core application features while overseeing the overall technical development process.
- Conducted code reviews, debugging, and testing to maintain software quality and performance.

Project Manager– Dramsve Software Solutions,Nashik

Current

- Coordinated project activities and ensured the timely completion of assigned tasks.
- Collaborated with team members to define project requirements and monitor overall progress.
- Implemented the Software Development Life Cycle (SDLC) phases, including requirement analysis, design, development, testing, and deployment.

PROJECTS

Web-Based Drone Footage Integration and Visualization Dashboard

November 2025 – December 2025

- Integrated real-time and recorded drone video feeds into a centralized web-based dashboard.
- Generated heat maps and crowd density maps from drone footage to visualize movement patterns and high-density areas.
- Designed role-based access control to ensure secure monitoring and communication.
- **Tech Stack:** HTML, CSS, JavaScript, Flask, React, FastAPI.

Livestock Breed Analysis and Classification Platform

August 2025

- Developed a web-based system to analyze and classify cow and buffalo breeds using image-based machine learning.
- Implemented server-side inference using Flask APIs to integrate the ML model with the web interface.
- Displayed prediction results dynamically on the user interface to enhance usability and user experience.

POSITIONS OF RESPONSIBILITY

Public Relation Lead– College Technical Club (ISA,IASC)

- Managed internal and external communications to promote club events, workshops, and technical activities.
- Developed promotional content and managed social media outreach to enhance the club's visibility and engagement

Technical Coordinator– College Technical Club(ISA)

- Coordinated and managed technical events, workshops, and competitions, ensuring smooth execution and participant engagement.
- Assisted in organizing technical sessions and facilitated communication between organizers, speakers, and participants.

CERTIFICATIONS

- Full Stack Web Development – Udemy
- Python Programming – Coursera

EXTRACURRICULAR ACTIVITIES

- **Winner – Smart India Hackathon (AICTE) 2025**, selected from 500+ teams.
- **2nd Winner – Entreprenex Hackathon at JSPM Wagholi, with prize money of 2.51 lakhs**, selected from 100+ teams.
- **1st Winner – Fish Tank held at PCCOER, Ravet, with prize money**, selected from 50+ teams.
- **2nd Winner – Startup Hunt held at IIIT,Pune**, selected from 50+ teams.
